

Fees

The tuition fees for the **Executive MBA Program** are €4,500 per semester, in total €18,000, plus administration fees which currently total €130 per semester.

The tuition fees for the Management Essentials for Professionals are €7,000.

Introduction of an Excellence Scholarship

As a leading German business school, HFU is investing in the future by enabling the most academically talented students to receive a top-quality business education. HFU's Executive MBA scholarship program helps make your goal of an international business career a reality.

We reward the outstanding performance of our most highly motivated and talented students by offering scholarships. A maximum of two students who have gained excellent grades in their first, second or third Executive MBA semester will automatically be considered for a scholarship of € 2,000 for the following semester, reducing their tuition fees to € 2,630 each for the next semester.

The English-language program with a focus on general management provides practical and workplace-oriented knowledge and is the ideal career kick. HFU will award up to two partial scholarships for the participants of the program launch in March 2022; application deadline is January 15, 2022.

The program focuses on strengthening interdisciplinary and intercultural knowledge and experience. This is extremely important, especially for export-oriented economic countries. Therefore, the Executive MBA also includes two one-week modules abroad, one in China and one in Europe. The internationally recognized Master of Business Administration (MBA) which is awarded upon successful completion of the program, is a vital stepping stone in your future career path.

The small group size of maximum 15 participants allows enough flexibility to both customize the course and to plan in the long-term, making it ideal for candidates preparing to return to work after maternity leave, too. The on-campus days of Friday and Saturday, usually twice a month during the semester, as well as the foreign modules, can be easily integrated into existing schedules. The program stands out from the crowd because of its on-the-job relevance, providing the ideal professional development tools.

The Executive MBA program is offered on Schwenningen Campus and is accredited through the university's system accreditation.

Type of promotion

The HFU Business School will award up to two partial excellence scholarships for the second, third and fourth semesters of the 2022 part-time Executive MBA Program; this covers up to one third of the tuition fees.

The Executive MBA partial excellence scholarships will be offset against the tuition fees of the relevant semesters of the Executive MBA program at the HFU Business School.

Requirements for the Executive MBA program

- » A university degree
- » A minimum of five years professional experience
- » Good English language skills
- » Participation in a personal interview

Requirements for the Executive MBA scholarship
