

Dear students,

We would like to share with you our plans for the lecture period in SoSe 2021.

As yet, there are no specifications from the Ministry of Education and the situation remains characterized by great uncertainty. However, we are aware that, for many reasons, you need extensive planning certainty as soon as possible with regard to the SoSe 2021. At the same time, the health of all students and faculty is of course of paramount importance in all planning.

Our wish is to have you all here with us (again) soon and to learn and discuss with you personally in the lectures. In view of the currently foreseeable Corona development, this wish will unfortunately only be realized to a very limited extent in the coming semester.

We have given a lot of thought and discussed intensively how the SoSe 2021 should look like under the given conditions. The result is the following guidelines for teaching in SoSe 2021, which you can use as a basis for your personal planning.

Bachelor programs: IBW, IBM, BMP		Master programs: IMM, MBA, EMBA
Semester 1 + 2	semester > 2	all semester
Pitstop model	Online model	Presence model
<p>We anticipate an online start at the beginning of the semester. As soon as the pandemic situation allows, lectures will be held as follows: Lectures will be held online 4 days a week.</p> <p>At regular intervals (planned to be every 2nd week) there will be a full attendance day. These lectures will take place in a large lecture hall and thus without group division and video transmission to a neighboring lecture hall.</p> <p>In this way we want to enable the new and younger students in particular to get to know us and each other personally.</p>	<p>All lectures (including electives and language courses) will take place fully online. Switching between face-to-face and online classes on the same day will thus be avoided.</p> <p>Exceptions: if necessary, 1-2 WPF can take place partially in presence.</p>	<p>As soon as the pandemic situation allows, lectures will be held in presence.</p> <p>Exceptions: a few subjects will be held online throughout.</p>
<p>All face-to-face lectures will be held in compliance with the applicable hygiene regulations.</p> <p>All face-to-face lectures will - as far as technically and organizationally possible - also be transmitted online @home.</p> <p>The examinations during and at the end of SoSe 2021 are again planned as a mix of face-to-face and online examinations. An exclusively distance semester, which also extends over the examination phase, will therefore not be possible.</p>		

With these guidelines, we hope to ensure a good basis for a good and successful summer semester 2021 with us at the HFU Business School.

With best regards

Wolf-Dietrich Schneider (Dean)
 Uwe Hack (Vice Dean)
 Frank Kramer (Vice Dean Teaching)
