

Engineering Sciences, Media, Information Sciences, Business Information Systems and Product Engineering

Originally a respected engineering college, during recent decades the Furtwangen site has developed into a very modern campus accommodating ten faculties. High-tech in the midst of nature, the town is an ideal place to study for those who want to experience progress in making whilst enjoying a high quality of life.

Being one of the first universities in Germany focusing on business informatics, the HFU faculty of Business Information Systems offers different study programmes that are well integrated with research and industrial projects. These study programmes benefit from the excellent resources of Furtwangen campus. The faculty excellence is proven by regular top placements in CHE and in Wirtschaftswoche rankings. These study programmes not only offer a sound academic foundation but also a practical orientation, optimally designed to meet the demands of the job market.

The faculty offers four study programmes:

- Business Information Systems (B.Sc.)
- Business Networking (e-Business) (B.Sc.)
- Business Application Architectures (M.Sc.)
- Business Consulting (M.Sc.)

Reach new heights

It is not just the highest university in Germany, but also ranked among Germany's top educational establishments in many subjects – according to relevant surveys carried out amongst students and employers. Furtwangen University offers a wide variety of courses, with nine faculties and more than 50 accredited study programmes at its three campuses in Furtwangen, Villingen-Schwenningen and Tuttlingen, making it the southwest's leading university.

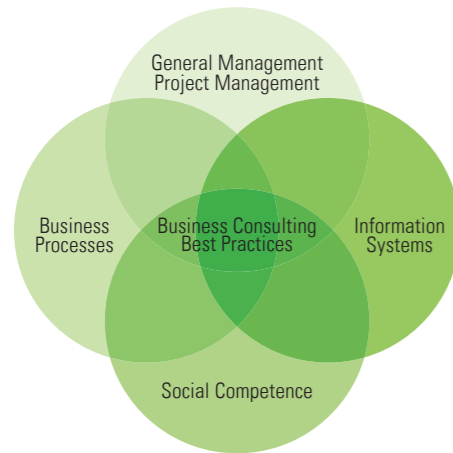

Those selecting a course at HFU profit from excellent tutoring and support. Because the conditions are right at HFU. Small classes, personal contacts with the teaching staff and an efficient learning environment guarantee very good results. Students can concentrate fully on their studies. Modern laboratories, an up-to-date IT infrastructure and one of Germany's best science libraries are just some of the excellent facilities available to all HFU students. Moreover, students and staff enjoy the university's internationality, as well as the natural beauty of the Black Forest, Baar and Tuttlingen region. The enormous range of sports available includes more than 30 disciplines – from skiing and climbing, to tennis and mountain biking.

The Programme

The Master Programme in Business Consulting is a three semester full time programme emphasizing on the integration of IT and business.

Some top-rankings

The Master course Business Consulting was introduced in 2001 and is offered by the faculty of Business Information Systems.

Below are some top-rankings mentioned:

- Ranked as the best among German university programmes in CHE Hochschulranking 2008 according to reputation by professors from other universities.
- Ranked as No. 30 in the 1st Eduniversal Ranking of the Best 4000 Masters & MBA in 30 majors worldwide that were published on <http://www.best-masters.com>

Graduates of this programme are able to analyze, optimize, monitor and control processes and structures in organizations. In particular, the course deals with cash and information flows in business oriented IT solutions.

Testimonials

"Excellent curriculum, well experienced faculty and intellectually stimulating environment."

Sanjay Singh, DS Operations & Administration, EADS Defence & Security

"I really believe that if it wasn't for BCM I would not have been offered my position with Deloitte."

Ganesh Sankaran, India-Deloitte Consulting GmbH

"BCM is a great blend of theory with practical over SAP Systems. The course has helped me gain specialist skills, visualize the typical business problems hence expanding my years of experience. The course molds you for a career in global consulting."

Vittal Navale, India-Deloitte Consulting GmbH
